

Elite Total Access Collection for Microsoft

One Year Of Unlimited Live Microsoft Training

Cloud skills remain in short supply at almost every level, with nearly half of IT leaders identifying it as the second-most challenging discipline to staff. As more organizations rely on technology to transform, merely understanding new technologies is not enough; your teams must be able to quickly and reliably apply their skills to cutting-edge projects.

Recognizing this need, Skillsoft Global Knowledge has developed the Elite Total Access Collection for Microsoft subscription, designed for those who would benefit from one or more Microsoft Instructor-led Training (ILT) courses per year. This year-long subscription equips learners to build durable skills in popular technology solutions such as Azure, Data and AI, Security, Microsoft 365, and Copilot.

A 12-MONTH MULTI-MODAL SUBSCRIPTION INCLUDES:

- 50+ Microsoft Instructor-Led Training (ILT) classes
- 800+ On-Demand Microsoft learning paths

INTERESTED IN AN ENTERPRISE SUBSCRIPTION OR PRIVATE GROUP TRAINING?

Skillsoft Global Knowledge can help you maximize your training investment and set your team up for success. Our array of training subscriptions, exclusive offers, and free resources are available to all managers, training coordinators, and group buyers. Contact your local Skillsoft Global Knowledge representative or visit www.globalknowledge.com for more information.

“Instructor was great! Very detailed and very instructional (providing reasons why things are done a certain way).”

ARLAN A.
